## Fundraising Happy Hour Participants

### Agroforestry Partners LLC

Private Placement Fund

Provide a turnkey financing solution to enable agroforestry conversion for farmers and landowners and provide an uncorrelated, return focused ESG opportunity for investors. We aim to fix the carbon cycle and improve climate health one acre at a time. [Contact.](#)

---

### Alexandre Family Farm

CPG Brand (Raising Equity & Debt)

Alexandre Family Farm certified regenerative A2/A2 organic milk brand, founded by Blake & Stephane Alexandre. Our dairies, along California's north coast, thrive in a climate of comfortable cool summers and mildly cool, wet winters and are unrivaled anywhere for pasture grazing. We have 4,700 crossbred milk cows, 6,300 acres of irrigated pasture, and 2,500 acres of organic crop land for hay production. We started the brand to bring health to our farm, team members and rural community, one of the poorest in California. Our hearts are in nutrient dense foods, regenerative practices while promoting wildlife habitat, biodiversity, and carbon sequestration.

### Applied Ecological Institute + Ecosystem

Non-Profit & Venture Capital Fund

AEI is the first venture studio for nature-based startups. Natural ecosystems are the planet's best business model: diversified, regenerative, and designed to create compounding returns. Business solutions designed to restore soil, water, and biodiversity have the power to outperform traditional investments by capitalizing on the natural abundance of those healthy ecosystems. [Contact.](#)

**Biome Capital Partners**  
Private Equity Fund

Biome Capital Partners is a regenerative ecosystem investment platform aiming to transform the economics of growing food and fiber. Through regenerative management and collaboration across regional food sheds, BCP will work hand in hand with stakeholders to unlock the land's innate capacity for abundance and create a new benchmark in accessibility of nutritious, regeneratively-produced food.

**FRACTAL**

**Fractal**  
Farmland Equity Investment

Fractal is creating the next generation of farmland investment that funds farmers to create more profitable, resilient, and impactful farms. Fractal provides farmers with growth equity by investing in minority shares of farmland owned by farmers. We use our technology and aligned incentives with farmers to price in and reward regenerative practices that increase long-term investor returns and strengthen farms themselves. Fractal believes that science-enabled capital can fund the regenerative transition at the scale that is needed to change agriculture in the next decade. [Contact.](#)

---

**Iroquois Valley Farmland REIT**  
REIT, Private Debt

Iroquois Valley is a real estate investment trust that works with mission-driven investors to provide organic and regenerative farmers land security through long-term leases and mortgages. Our REIT is incorporated as a Public Benefit Corporation and B Corp. [Contact.](#)

---

**Mad Capital**  
Private Credit

Mad Capital provides flexible long-term loans to organic and transitioning farmers. [Contact.](#)

**Pelican Ag**  
Venture Capital Fund

Pelican Ag is the UK's first venture fund powering regenerative agriculture and sustainable food systems. Farm to flush, soil to soul. [Contact.](#)

---

**Potlikker Capital**  
Non-Profit

Potlikker Capital is a farm community governed charitable integrated capital fund created to holistically serve BIPOC (Black, Indigenous and people of color) farmers in America who operate at the intersection of racial and climate justice. We are committed to preserving and increasing the diversity of America's farmers, ranchers, and agricultural managers who covenant to: Increase equitable access to healthy food for their communities. Build wealth and knowledge within their local BIPOC farming communities. Farm to address climate change through adopting regenerative farming practices. [Contact.](#)

---

**Regenerative Harvest Fund by Mission Driven Finance**  
Private Credit Fund

A strategy at the intersection of community, climate, and ecosystem. The Regenerative Harvest Strategy supports the transformation of our food system into one that is regenerative, healthy, and resilient. There are critical bottlenecks in the current system that limit the ability of good producers, processors, and packagers to achieve scale, especially for early, growth-stage enterprises. The fund provides inclusive and flexible financing for businesses that: 1) Focus on value-added processing, packing, and distribution for regenerative producers 2) Embrace an environmental justice lens, including an emphasis on rural, women-led, or BIPOC-led organizations 3) Increase the flow of regeneratively produced agricultural products. **rePlant**  
capital

**rePlant Capital**  
Public Benefit Corp and Certified B Corp

rePlant is scaling regenerative, organic agriculture as a climate solution. We've created the ecosystem of stakeholders required for transformation at scale by aligning the necessary incentives at the farm, CPG, and financial levels. We've built a climate finance platform that partners with global supply chains in the food industry to finance this transition and have incredibly deep and trusted relationships in the CPG industry that we can leverage to accomplish these goals globally. [Contact.](#)

Trailhead Capital is a mission-driven investment firm creating outstanding financial, societal, and ecological returns by backing entrepreneurs who are building the regenerative future of food and agriculture. We are targeting Seed and Series A stage investments into companies using innovation and technology to address the myriad of externalities and inefficiencies in our global agricultural system. We believe deploying this catalytic capital represents the single greatest opportunity to improve human, soil, and planetary health today, thereby leading to outsized returns for our investors. [White Leaf Provisions](#)  
CPG Brand (Equity Raise)

We are a US-based, family-run business that has launched the first line of 100% regenerative organic baby and family foods throughout the US. Our mission is to educate and showcase the importance of pure and transparent regenerative organic foods to all age groups across the US. All White Leaf Provisions products are the first to market in the US to be certified organic, Biodynamic, GMO-free and Glyphosate residue free. [Contact.](#)

---

[Zero Footprint](#)  
Non-Profit

Zero Footprint leads public private collaborations with state agencies, regional governments and conservation experts to scale regenerative agriculture. We make it possible to implement the next practice on the next acre, from a few cents per purchase. We're also able to transition supply chains and bring cost sharing from a USDA CSC grant and/or compost purchased by CA Jurisdictions. Since 2020 we've awarded over \$1M to 65 farm projects in CA and CO with a modeled sequestration of over 40,000 tons CO<sub>2</sub>e. [Contact.](#)
